

**April Newsletter  
Senior Kiddie Campus Room #1  
Miss Nanette and Miss Sue**

Spring has sprung and the weather has been crazy. We are hoping the nice weather will follow spring break.

**Favorite Activities:** The children really enjoyed dictating their space stories and we took great pleasure in reading them aloud to the class. Such wonderful imaginations. We also took a ride into space and shot off our rocket ships.

During Silly Science Week we did several science experiments that required prediction and imagination. Raisin elevators took observation and description of what we saw. And answered the questions "Why did the raisin float to the top of the soda pop?" The children picked a variety of "scientific" ingredients to put in their crazy concoction experiment and mixed to their hearts content. In these activities the children were asked to predict what would happen, observe, and then dictate what actually happened. Our favorite creative art was bubble painting. What fun we had blowing the bubbles and watching them burst into color on the paper.

The leprechaun hunt was the most fun of all. Our little leprechaun made quite a mess of the classroom. He turned over baskets of toys and chairs and left green footprints everywhere. The prints lead us out the classroom door and down the hall where we found clues – a shamrock, hat, rainbow and pot of gold. We found him hanging out by the registration office. We captured him and brought him back to our room where he watched all of us clean-up his mess☺.

**Parent Volunteers:** It's not too late to pick a day to join us in class. We would love to have you.

**Cosley Zoo Field Trip:** Room #1's field trips to Cosley Zoo are Monday, April 24 and Tuesday, April 25. Permission slips will be sent home soon.

**Show and Tell:** On Wednesday, April 12/Thursday, April 13 please bring one item that can be recycled.

**Graduation Date Reminder:** Room #1 classes will have their graduation ceremony Wednesday, May 24 at 6:30 p.m. Please make sure to mark you calendars.

**Coming in April:** During the past three months the children have been assigned a job everyday. Starting in April the children will be able to choose their own job. One of our new jobs will be the Weather Duck. Each child will have the opportunity to dress the duck in clothes appropriate for the day's weather.
