

Room 5 Senior Kiddie Campus Miss Amanda

We would like to thank everyone who contributed treats and goodies to the Fall Fest Celebration. I know we had a great time and I hope all of you enjoyed the festivities too. Thanks again for making this occasion special.

Favorite Activity: During the month of October the children enjoyed learning about pumpkins. After making a prediction about how pumpkins grow, we read stories about pumpkins and learned they grow on vines. We used our senses to feel and smell the “stuff” inside the pumpkin. The children also had a good time weighing and measuring the various sized pumpkins and apples, which we had on our science table.

Another fun activity which promoted hand/eye coordination and small muscles was hammering golf tees into our pumpkins. The children really had fun with that! The children also tried to think of words that start with letter “P”. They did a great job of contributing words.

The children enjoyed telling everyone about their shape homework. We talked about their findings and read each item for each shape. They have informed me that they like doing “homework” so we will have some more very soon. ☺

Parent Involvement: We wanted to remind everyone that if you are interested in signing up to come inside the room and help out, that you may now sign up on the sheet that is on hanging on the wall outside the classroom. Remember, we are unable to accommodate siblings in the classroom. There will be a new sheet each month.

Show and Tell: On November 8 and November 9 we will have show and tell. Please bring 3 items that start with the same letter as your name. E.g. Amanda would bring in an apple, airplane, and alligator.

What's Ahead: In the coming month our themes are: Fall/Harvest Time, Being a Good Neighbor, Being Thankful Week/Thanksgiving, and Gingerbread People.
