

Miss Amanda Room 5 Senior

Hopefully we will get some more snow in February for us to play and have fun in. Remember, if there is snow on the ground please make sure your child has snow pants, boots, gloves, hat so everyone has a chance to play.

Favorite Activity:

We learned a couple new vocabulary words this month when we talked about Hibernation. We learned that some animals hibernate or migrate till spring. We learned that hibernate meant to sleep during the cold winter months and migrate meant to fly or swim somewhere warmer until spring.

The children have been writing their names on a "Who is Here Today?" sign in sheet when they come into the classroom. Everyone has shown improvement with their name writing which is great to see. This gives us extra practice with name writing, name recognition (starting to identify friend's names too), and counting how many friends have written their name.

Show and Tell: On February 15/16, have children bring 1 or 2 items that have special meaning to them to class.

Valentine's Day: We will celebrate Valentine's Day with games and special activities on Tuesday, February 13 and Wednesday, February 14 during class. Please bring your valentine's to class that day for the children to distribute.

Please do not write the other children's names on the cards as this slows down the distribution process.

You may also bring a bag of candy/pencils/stickers but please do not send sealed treat bags to be passed out. Thank you.

Upcoming News: If anyone has blank greeting cards laying around their house and are willing to donate to our classroom, I would greatly appreciate it. Thanks!

February Themes: Transportation, Valentine's Week, Magnets and other fun with Science.
