

Room 1 Senior Kiddie Campus

The month of February sure did fly by; it's hard to believe that spring break will be upon us in just a few weeks. I know we are all looking forward to Spring!

Thank you to all the parents that brought in a special card or candy to pass out for Valentine's Day. The children really got excited that they had a whole bag of goodies to take home.

Favorite Activity:

During Transportation Week the children really enjoyed rolling a car down a ramp with its wheels dipped in paint to make car tracks. I noticed the children experimenting with the way they put the car on the ramp. They would position the car at different angles and change where on the ramp to roll the car down.

A game we have been playing is "Roll and Write". We take turns rolling alphabet blocks/number blocks and whatever the children roll is what they have to write on our dry erase board.

We have been experimenting with baking soda and vinegar and the chemical reaction that occurs when they are mixed. The children used eye droppers to drop vinegar onto the baking soda and we then talked about their observations. They thought it was cool that it bubbled and fizzed.

Show and Tell: March 9th/10th bring a toy dinosaur to show your classmates. (To go along with our Dinosaur Theme)

March 25th /26th please bring two items that rhyme. (To go along with our Dr. Seuss week) An example might be a block and a rock.

Themes for March: Dinosaurs (2 weeks), St. Patrick's Day, and Dr. Seuss.

Spring Break: Just a reminder that spring break is the week of March 30. Class resumes on April 6th/7th.
